

VeriFone® PINpad 1000 fits easily in the palm of the hand

VeriFone® PINpad 1000

The VeriFone® PINpad 1000 provides an attractive, economical way to add debit card capability to payment processing terminals that read track 2.

Requiring minimal counter space, the PINpad 1000 fits easily in the palm of the hand. Its large, integral keys and the easy-to-read display allows your merchants' customers to enter their Personal Identification Number (PIN) quickly and in complete privacy, facilitating swift processing.

The PINpad 1000 supports a variety of configurations to meet your merchants debit processing needs now and in the future.

Product Features

Compact size

The hand-held PINpad 1000 takes up minimal counter space and is easy for customers to handle.

Large keys

The large, clearly marked keys make entry errors unlikely.

Sealed keypad

Impervious to spills, the sealed keypad extends unit life and is easy to wipe clean.

Easy-to-read display

The 8 character LED display which shows up to 16 characters through automatic scrolling, facilitates operation.

Hand-held convenience and maximum flexibility
